LÊ THÚC THANH TÚ

SAP DEVELOPER

Hồ Chí Minh, Vietnam | lethucthanhtu@gmail.com | (+84) (098) 432 67 42 | linkedin.com/in/lethucthanhtu/

PROFILE

SAP Developer with a solid foundation in the IT field and hands-on experience in SAP development, including internship exposure. Proficient in ABAP and OOABAP, ensuring efficient and effective solutions tailored to business needs. Adept at utilizing Fiori UI5 and OData for modern application development, driving innovation and enhancing user experience. Ready to elevate SAP development initiatives with a fresh perspective and enthusiasm.

PROFESSIONAL EXPERIENCE

SAP Developer, DXC Technology, Ho Chi Minh **Jan 2025 — Present**

SAP Developer Intern, FPT Software, Ho Chi Minh **Sep 2023 — Dec 2023**

PROFESSIONAL WORK EXPERIENCE

Internal Sales & Purchasing Process and Goods Movement Module System **Jun 2024 — Dec 2024**

Project description: Developed ALV reports and Smartforms for outbound delivery processes, including movement status management, goods issue/receipt postings, and billing exports. Integrated custom reports with standard SAP transactions (VL02N, MIGO).

Responsibilities

- Designed and developed ALV reports to manage outbound deliveries, track movement status, and perform mass posting of goods issues/receipts.
- Integrated custom programs with VL02N and MIGO for real-time updates to delivery documents.
- Created Smartforms for generating and exporting billing documents in PDF format.
- Implemented OOABAP, BAPI, BAdI, BDC in development tasks.

3D Warehouse Virturalization SAP Fiori Applicaiton, Ho Chi Minh **Mar 2025 — Jul 2025**

Project description: 3D Warehouse Virturalization in Fiori UI5

Responsibilities

- Integrated Three.js for 3D visualization inside SAP UI5 views.
- Develop key feature like add and remove cargo, storage in the warehouse, navigate, and highlight specific cargo
- Configured and deployed the application to SAP BTP Cloud Foundry environment.
- Managed destination and HTML5 repo configuration for app accessibility in Launchpad/Work Zone.

Sale Data Management Fiori Application, Ho Chi Minh **Sep 2023 — Dec 2023**

Project description: Developed a standalone SAP Fiori application with SAP UI5 and TypeScript. The app was connected to OData services, providing CRUD operations and data visualization through smart tables.

Responsibilities

- Designed and implemented the SAP Fiori UI5 application using TypeScript and MVC model.
- Integrated the app with OData services for backend communication.
- Developed Smart Table components with filtering and search functionality.
- Implemented full CRUD operations (create, read, update, delete).
- Ensured responsive design and performance optimization within the Fiori environment.
